### ON-SITE SERVICES

Priority Health, part of Carle Health, is a new type of primary care practice in Greater Peoria. The providers reserve more time to spend with each patient, especially those who have chronic conditions, to help them achieve their personal health and wellness goals. With on-site X-ray and lab services, you won't have to leave the clinic for many common tests or other helpful services.

# Priority Health

A NEW CONCEPT IN MEDICINE

## APPOINTMENTS ON YOUR SCHEDULE

We get it. Life's busy and it's not always easy to make time to see your provider. That's why we're making it easy for you with extended hours and same-day appointments. With Priority Health, you won't have to shuffle around your schedule to see a doctor. You schedule an appointment at a time that's convenient for you.

Apply now or schedule a tour at [carle.org/services/priority-health](https://carle.org/services/priority-health).

---

Priority Health providers take the time to get to know you both as a patient and a person. The better they know you, the better they can help you navigate your wellness journey.

Priority Health providers will help you find the right specialist for your health condition and will make sure they know your health history and your priorities. All test reports from your specialist will be sent to your

Priority Health provider, who'll then take the time to help you understand the results and offer you their recommendations. If you ever need to be admitted to the hospital, your Priority Health provider will visit you during your stay and will make sure you and your family understand your care.

### **PRIORITY HEALTH PROVIDERS TAKE THE TIME TO GET TO KNOW YOU.**

As your partner and expert guide, your Priority Health provider will coordinate your care with your specialists to make sure everyone knows your health history, medications, allergies, test results, health goals and more. It's care personalized for you.

- Priority Health providers have fewer patients, so they have more time to spend with you, as well as more appointment availability.

- Priority Health schedules longer appointments. This gives your provider more time to examine you carefully and make a thorough and thoughtful diagnosis.
- Longer appointments also give providers extra time to explain your treatment options and help you choose the best plan for your health goals.
- Priority Health providers practice family medicine and see patients of all ages.
- All visits and services are covered, including vaccinations, checkups, annual physicals, and treatment of any illness or injury.
- There's no cost to join Priority Health and there are no additional costs for having your provider spend more time with you or your other providers.
- Medical records can be smoothly transferred to your Priority Health provider at no cost to you.
