

SPECIALTY MEDICATION FAQs

What is a Specialty Medication?

Specialty medications are high-cost prescription medications that treat complex conditions and typically require special handling and monitoring. Specialty medications may be in the form of a pill, injection, or inhalation. These medications are generally not stocked at Retail pharmacies and require special order or the use of a Specialty Pharmacy.

How do I know if I need to purchase my medication from Magellan Rx Specialty Pharmacy?

If your medication is on the ***Specialty Products List***, you will need to purchase it from Magellan Rx Specialty Pharmacy. The Specialty Products List can be found on [Benefits.cat.com > RX tab > Specialty Products List](#). You may also contact Magellan Rx Specialty Pharmacy Services at **1-866-554-2673**, Monday – Friday, 7:00 a.m. – 9:00 p.m. CST for more information.
