

# Ngenla (somatrogon-ghla) Prior Authorization Request Form

Caterpillar Prescription Drug Benefit  
Phone: 877-228-7909 Fax: 800-424-7640

**Instructions:** Please fill out all applicable sections completely and legibly. Attach any additional documentation that is important for the review (e.g., chart notes or lab data, to support the authorization request). Information contained in this form is Protected Health Information under HIPAA.

**URGENT**

MEMBER'S LAST NAME: \_\_\_\_\_ MEMBER'S FIRST NAME: \_\_\_\_\_

1. HAS THE PATIENT TRIED ANY OTHER MEDICATIONS FOR THIS CONDITION? <input type="checkbox"/> YES (if yes, complete below) <input type="checkbox"/> NO		
<b>MEDICATION/THERAPY (SPECIFY DRUG NAME AND DOSAGE):</b>  	<b>DURATION OF THERAPY (SPECIFY DATES):</b>  	<b>RESPONSE/REASON FOR FAILURE/ALLERGY:</b>  
2. LIST DIAGNOSES:		ICD-10:
<input type="checkbox"/> Growth hormone deficiencies WITHOUT organic pituitary disease <input type="checkbox"/> Growth hormone deficiencies WITH organic pituitary disease <input type="checkbox"/> Idiopathic Short Stature (ISS) <input type="checkbox"/> Small for gestation age (SGA) <input type="checkbox"/> Turner's Syndrome <input type="checkbox"/> Prader-Willi Syndrome <input type="checkbox"/> Noonan Syndrome <input type="checkbox"/> Short Stature Homeobox (SHOX) Syndrome <input type="checkbox"/> Other diagnosis: _____ ICD-10 _____		
3. REQUIRED CLINICAL INFORMATION: PLEASE PROVIDE ALL RELEVANT CLINICAL INFORMATION TO SUPPORT A PRIOR AUTHORIZATION.		
<b>Is this drug being used as part of a clinical trial?</b> <input type="checkbox"/> Yes <input type="checkbox"/> No <b><u>PEDIATRIAC PATIENTS &lt;18 YEARS OF AGE:</u></b> <b>Is the provider a pediatric endocrinologist or in the case of chronic kidney disease, pediatric nephrologist?</b> <input type="checkbox"/> Yes <input type="checkbox"/> No  <b>Does patient have growth failure secondary to Growth Hormone Deficiency?</b> <input type="checkbox"/> Yes <input type="checkbox"/> No <i>Chart note documentation required</i>  <b>Have other causes of growth failure been ruled out?</b> <input type="checkbox"/> Yes <input type="checkbox"/> No <i>Chart note documentation required</i>  <b>Does patient have a current acute critical illness after open heart surgery, abdominal surgery or multiple accidental trauma, or those with acute respiratory failure?</b> <input type="checkbox"/> Yes <input type="checkbox"/> No  <b>Has the patient tried and had an intolerance to Norditropin (somatotropin) and all other short-acting growth hormone products?</b> <input type="checkbox"/> Yes <input type="checkbox"/> No <i>Please provide detailed rationale of why treatment cannot be continued (such as allergic rash or difficulty breathing)</i>  <b>If patient has had an intolerance to the preferred product Norditropin and all other formulary short-acting growth hormone products has the U.S. FDA MedWatch Voluntary Reporting Form for adverse drug reactions (FDA Form 3500) been filed with the FDA?</b> <input type="checkbox"/> Yes <input type="checkbox"/> No <i>Please provide chart note documentation of MedWatch form.</i>  <b>Does patient have an absolute contraindication to trial of the preferred product Norditropin and all other formulary short-acting growth hormone products (such as a documented patient allergy to a known dye or binder or additive in the product)?</b> <input type="checkbox"/> Yes <input type="checkbox"/> No <i>Please provide documentation.</i>		

**Ngenla (somatrogon-ghla)**  
**Prior Authorization Request Form**

Caterpillar Prescription Drug Benefit  
Phone: 877-228-7909 Fax: 800-424-7640

Has patient failed to achieve adequate height velocity with complete compliance while trying at least 3- months on the preferred product Norditropin and all short-acting growth hormone products?  Yes  No *Please provide documentation.*

**For New Starts who have not been previously on a short-acting growth hormone product:**

**PEDIATRIAC PATIENTS <18 YEARS OF AGE:**

Is the provider a pediatric endocrinologist or in the case of chronic kidney disease, pediatric nephrologist?  Yes  No

**For GHD WITHOUT organic pituitary disease:**

Does the patient have growth failure caused by inadequate secretion of endogenous growth hormone in the absence of organic pituitary disease?  Yes  No

Has growth hormone deficiency been confirmed by ONE of the following:

- TWO provocative test with results below 10 ng/ml (i.e. i.e., L-Dopa, insulin-induced hypoglycemia, arginine, glucagon, or clonidine)
  - ONE provocative stimulation test less than 15 ng/mL AND a low insulin-like growth factor-1 (IGF-1) level for the patients age, gender, and pubertal status AND a low IGFBP (insulin-like growth factor binding protein-3)
- Documentation must be submitted*

Is the patient's height below the third percentile for their age and gender related height?  Yes  No  
*Documentation must be submitted*

Does the patient have a decreased growth velocity of  $\geq 2$  standard deviations (SD) below the age-related mean measured over 1 year?  Yes  No  
*Documentation must be submitted*

Does the patient have delayed skeletal maturation of  $\geq 2$  SD below the age/gender related mean?  Yes  No  
*Documentation must be submitted*

In patient's  $\geq 10$  years of age, are the epiphyses confirmed as open?  Yes  No  
*Documentation must be submitted*

**For GHD WITH organic pituitary disease:**

Does the patient have a diagnosis of GHD caused by an inadequate secretion of endogenous growth hormone in the presence of organic pituitary disease (e.g., head trauma, cranial irradiation, stroke, hypopituitarism, panhypopituitarism, known mutations, irreversible and/or post-surgery hypothalamic-pituitary lesions, embryopathic / congenital defects of the pituitary, septo-optic dysplasia)?  Yes  No

Is the serum IGF-1 level lower than the age-specific lower limit of normal?  Yes  No  
*Documentation must be submitted*

Does the MRI or CT of head show pituitary stalk agenesis, empty sella, sellar or supra-sellar mass lesion, and/or ectopic posterior pituitary "bright spot"?  Yes  No *Documentation must be submitted*

**For idiopathic short stature (ISS):**

Does the patient have a diagnosis of non growth hormone deficient short stature?  Yes  No

**Ngenla (somatrogon-ghla)**  
**Prior Authorization Request Form**

Caterpillar Prescription Drug Benefit  
Phone: 877-228-7909 Fax: 800-424-7640

Is the patient's height standard deviation score (SDS) of 2.25 or below the mean chronological age and sex?

Yes  No *Documentation must be submitted*

Have other causes such as genetic, metabolic, or organ system dysfunction been ruled out and documented?

Yes  No *Documentation must be submitted*

**For chronic kidney disease:**

Has the patient received a renal transplant?  Yes  No

Is the patient's height below the 3rd percentile for their age and gender related height?  Yes  No

*Documentation must be submitted*

**Small for Gestational Age (SAG):**

Was the patient born small for gestational age (SGA), defined as birth weight and/or birth length two or more SDs below the mean for gestational age?  Yes  No

*Documentation must be submitted*

Has the patient failed to catch up in growth by 2-4 years of age, defined as two or more SDs below the mean in birth weight and/or birth height for age and sex?  Yes  No

*Documentation must be submitted*

Does the patient have another clinically defined syndrome known to cause short stature due to primary growth failure(per ICPED), including Down Syndrome (Trisomy 21) and Silver-Russell syndrome?  Yes  No

*Documentation must be submitted*

Does the patient have congenital bone dysplasia, including achondroplasia and hypochondroplasia?  Yes  No

*Documentation must be submitted*

**For Turner's syndrome:**

Was the patient's diagnosis confirmed by chromosome analysis?  Yes  No

*Documentation must be submitted*

Does the patient's height fall below the 5th percentile for chronological age and sex?  Yes  No

*Documentation must be submitted.*

Has the patient's growth velocity, prior to age 14 years, decreased to less than 2 cm /year prior to bone growth cessation?  Yes  No

*Documentation must be submitted.*

Does the growth chart confirm the child's height for age is less than or equal to 50% of that predicted based on the mean parental height for females ? (mean predicted height in centimeters = mean parental height in cm minus 6.5 cm).  Yes  No

*Documentation must be submitted.*

**For Prader-Willi Syndrome:** Was the diagnosis confirmed by genetic testing (loss of gene function associated with chromosome 15 such as translocation or maternal uniparental disomy)?  Yes  No

*Documentation must be submitted*

**Ngenla (somatrogon-ghla)**  
**Prior Authorization Request Form**

Caterpillar Prescription Drug Benefit  
Phone: 877-228-7909 Fax: 800-424-7640

Has an assessment of underlying airway obstruction including sleep studies been completed?  Yes  No  
*Documentation must be submitted*

Does the patient have any of the following:

- severe obesity
- history of upper airway obstruction
- respiratory compromise
- severe sleep apnea

**For Short Stature Homeobox (SHOX) deficiencies:** Was the diagnosis confirmed via chromosomes analysis?

Yes  No

**For ADULT patients  $\geq$  18 years of age:**

Does the patient have adult onset GHD alone or with multiple hormone deficiencies (such as hypopituitarism), as a result of pituitary disease, hypothalamic disease, surgery, radiation therapy, or trauma?  Yes  No

Is the patient's serum IGF-1 concentration lower than the age-specific lower limit of normal in a patient who has organic pituitary disease?  Yes  No

*Documentation must be submitted.*

Does that patient have a subnormal GH response to insulin-induced hypoglycemia ( $<5.1$  ng/mL) or arginine-GHRH ( $<4.1$ ng/mL)?  Yes  No

*Documentation must be submitted.*

**For Adults with childhood-onset GHD:**

Does the patient have childhood-onset GHD as a result of congenital, acquired, or idiopathic causes?  Yes  No

Has the patient been retested at least 1 month after GH therapy has been discontinued and final height has been achieved and subnormal responses to at least one standard GH stimulation test confirm need for GH therapy?

Yes  No

**For GHD with organic pituitary disease:**

Does the patient have organic pituitary disease (e.i. head trauma, cranial irradiation, stroke, hypopituitarism, panhypopituitarism, known mutations, irreversible and/or post-surgery hypothalamic-pituitary lesions, embryopathic / congenital defects of the pituitary, septo-optic dysplasia)?  Yes  No

*Documentation must be submitted*

Does the patient have past OR current IGF-1 levels that are below the age- and sex-appropriate reference range without GH therapy?  Yes  No

*Documentation must be submitted*

Has the patient had a subnormal GH response to insulin-induced hypoglycemia hypoglycemia ( $<5.1$ ng/ml) or arginine-GHRH ( $<4.1$ ng/ml)?  Yes  No

**For renewal, please answer the following:**

**Pediatric patients  $<$  18 years of age:**

Does the patient have one of the following diagnosis:

**Ngenla (somatrogon-ghla)  
Prior Authorization Request Form**

Caterpillar Prescription Drug Benefit  
Phone: 877-228-7909 Fax: 800-424-7640

- growth hormone deficiency
- small for gestational age (SGA)
- idiopathic short stature (ISS)
- growth failure due to Turner's syndrome
- Noonan Syndrome
- Short stature homeobox (SHOX) deficiency
- chronic kidney disease

Are the patient's epiphyses open?  Yes  No

If the patient is male with a bone age of up to 16 years of age, is the patient's growth response at least 4.5 cm/year (prepubertal growth rate) or at least 2.5 cm/yr (post-puberty growth rate)?  Yes  No

If the patient is female with a bone age of up to 14 years, is the patient's growth response at least 4.5 cm/yr (prepubertal growth rate) or at least 2.5 cm/yr (post-puberty growth rate)?  Yes  No

**For a diagnosis of Prader-Willi syndrome:**

Has the patient experienced an increase in lean body mass, decrease in fat, or maintenance of benefit?  Yes  No

**Adults (≥ 18 years of age):** Has the patient experienced clinical benefit while on therapy (ie increase in total lean body mass, increase IGF-1 and IGFBP3 levels, or increase in exercise capacity)?  Yes  No

**REAUTHORIZATION**

**Pediatric patients < 18 years of age:**

Does the patient have one of the following diagnosis:

- growth hormone deficiency
- small for gestational age (SGA)
- idiopathic short stature (ISS)
- growth failure due to Turner's syndrome
- Noonan Syndrome
- Short stature homeobox (SHOX) deficiency
- chronic kidney disease

Are the patient's epiphyses open?  Yes  No

If the patient is male with a bone age of up to 16 years of age, is the patient's growth response at least 4.5 cm/year (prepubertal growth rate) or at least 2.5 cm/yr (post-puberty growth rate)?  Yes  No

If the patient is female with a bone age of up to 14 years, is the patient's growth response at least 4.5 cm/yr (prepubertal growth rate) or at least 2.5 cm/yr (post-puberty growth rate)?  Yes  No

**For a diagnosis of Prader-Willi syndrome:**

Has the patient experienced an increase in lean body mass, decrease in fat, or maintenance of benefit?  Yes  No

**Adults (≥ 18 years of age):** Has the patient experienced clinical benefit while on therapy (ie increase in total lean body mass, increase IGF-1 and IGFBP3 levels, or increase in exercise capacity)?  Yes  No
