

DRUG COVERAGE FAQs

How do I find out if my medication is a covered product?

You can find the list of covered medications at [Benefits.cat.com > RX tab > Caterpillar Drug Formulary](#) or you can call Magellan Rx Member Service Center at **1-877-228-7909**.

How do I know if my medication is covered by my medical benefit or my prescription benefit?

Typically, if a medication requires administration by a medical professional, it would be processed through your medical benefit. Medications covered through the prescription drug benefit are listed on the Caterpillar Drug Formulary and can be found at [Benefits.cat.com > RX tab > Caterpillar Drug Formulary](#) or you can contact Magellan Rx at **1-877-228-7909**.

If my spouse has primary prescription drug coverage through another insurance provider and has secondary coverage through Caterpillar, how do we get reimbursed?

Many pharmacies are able to submit both primary and secondary coverage claims on your behalf. If your pharmacy is not able to do this, you or your spouse may submit a Caterpillar Prescription Drug Claim Form to Magellan Rx for secondary coverage. Co-pay or co-insurance amounts will be charged if applicable. Make sure to include a copy of the prescription receipt (not the cash register receipt) and send to Magellan Rx at the address on the form. You may want to keep a copy for your records.

Forms can be found at [Benefits.cat.com > RX tab > Forms](#).
